CONCLUSION

Universal-Publishers eagerly seeks prolific authors who correctly are leading experts in their chosen field, and whose work addresses a specialized audience. Their mission is to expose novel ideas and important scholarship. In exchange for distribution rights, they offer vital distribution, adequate compensation, multiple media editions, and personal attention. The esteem book was under editing and improvisation from the beginning of the year 2019, after copyright agreement signing. The published book is eligible to provide learning to both Pharmacy apprentices (mainstream and diploma pharmacists) for their established courses related to Hospital and Community Pharmacy, Pharmacy Compounding and Dispensing as well as to the allied health professionals who are close to ill patients in their day-to-day activities. Significant limitation of the book lies with the continuous improvement in various aspects of healthcare services around the world that cannot be detailed in a particular frame. However, further reading references are given so that an aware reader can have an idea of credible sources that can undoubtedly benefit their future learnings. Also, a comparison table is added in Annexure 26 of the said book (Table 2), showing a few points that makes the book superior to similar other available books, which is further mentioned that those books obviously have their unique

superiority over this book, The Role of the Pharmacist in Patient Care (Achieving High Quality, Cost-Effective and Accessible Healthcare Through a Team-Based, Patient-Centered Approach) in terms of their focus on respective subject matter(s). The book solely claims its superiority in terms of focus in detailing Pharmacists' major roles and responsibilities in patient care.

CITATION

Mohiuddin, Abdul Kader. *The Role of the Pharmacist in Patient Care: Achieving High Quality, Cost-Effective and Accessible Healthcare through a Team-Based, Patient-Centered Approach*. Universal-Publishers, 2020. ISBN: 9781627343084

ACKNOWLEDGEMENT

I am obliged to the whole team of Universal Publishers, including Dr. Jeff Young (publisher and CEO) who undoubtedly helped & guided with their team members for all their support to the critical work in this project and make this book project a success. I would genuinely like to pay regardless thanks to Dr. Arinze Nkemdirim Okere, Associate Professor of Pharmacy, Clinical and Administrative Sciences, Florida A&M University, USA, and Dr. Mamun Rashid of Appalachian College of Pharmacy, Oakwood, Virginia, USA, for their precious time to review my manuscript and continued inspiration.
